SECTION 4: First aid measures	
4.1. Description of first aid measures	
After skin contact	
Wash with plenty of water and soap. Do NOT use solvents or thinners.	
After eye contact	ict
Separate eyelids, wash the eyes thoroughly with water (15 min.). In case of irritation consult an ocul After ingestion	151.
Rinse mouth thoroughly with water. If larger amounts are swallowed or in the event of symptoms tak medical treatment.	e
4.2. Most important symptoms and effects, both acute and delayed Until now no symptoms known so far.	
4.3. Indication of any immediate medical attention and special treatment needed Hints for the physician / treatment Treat symptomatically	
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media Carbon dioxide, Foam, Sand, Water	
5.2. Special hazards arising from the substance or mixture In the event of fire the following can be released: Carbon monoxide (CO); Carbon dioxide (CO2); de black smoke	nse
5.3. Advice for firefighters	
Other information	
Collect contaminated fire-fighting water separately, must not be discharged into the drains.	
SECTION 6: Accidental release measures	
6.1. Personal precautions, protective equipment and emergency procedures No particular measures required.	
6.2. Environmental precautions No particular measures required.	
6.3. Methods and material for containment and cleaning up Clean preferably with a detergent - avoid use of solvents.	
6.4. Reference to other sections Information regarding Safe handling, see Section 7. Information regarding personal protective meas see Section 8. Information regarding waste disposal, see Section 13.	ures,
SECTION 7: Handling and storage	

7.1. Precautions for safe handling

Remarks	Based on available data, the classification criteria are not met.
Aspiration hazard	
Based on available data, the	classification criteria are not met

Based on available data, the classification criteria are not met.

Experience in practice

Provided all the recommended protective and safety precautions are taken, experience shows that no risk to health can be expected.

Other information

There are no data available on the mixture itself. The mixture has been assessed following the additivity method of the CLP Regulation (EC) No 1272/2008 and classified for toxicological hazards accordingly.

SECTION 12: Ecological information

12.1. Toxicity

General information

There are no data available on the mixture itself.Do not allow to enter drains or water courses.The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as dangerous for the environment.

Skin Sens. 1A STOT SE 3	Skin sensitization, Category 1A Specific target organ toxicity - single exposure, Category 3

Relevant changes compared with the previous version of the safety data sheet are marked with: *** This information is based on our present state of knowledge. However, it should not constitute a guarantee for any specific product properties and shall not establish a legally valid relationship. The information in this Safety Data Sheet is based on the present state of knowledge and current legislation.

It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications. The product should not be used for purposes other than those shown in Section 1 without first referring to the supplier and obtaining written handling instructions.

As the specific conditions of use of the product are outside the supplier's control, the user is responsible for ensuring that the requirements of relevant legislation are complied with.

The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation.
