

SCRATCH FOAM PRINTING

PRODUCTS

- Scratch foam board
- Wooden stylus or skewer
- Rubber roller or foam roller
- Acrylic paint or block printing ink

HOW TO

- Design your artwork on a piece of paper-Remember everything prints in reverse.
- Lay this over the scratch foam board and draw over your design to indent the foam and transfer the picture
- Re-draw over the indent more heavily to produce a clear picture
- Different textures can be pressed into the plate to create different patterns.
- Load the roller with paint/ink and roll over the plate evenly.
- Place a piece of paper over the inked plate and rub firmly with your hand or a clean hard roller.
- Peel the paper back slowly to reveal your print.
